### **Medicas is A Holistic Wellness Practice**

Medicas Medical Clinic is a holistic family wellness practice. “Holistic” means they approach medicine from a “whole patient” philosophy. In other words, they understand that health is a combination of physical, mental, emotional, and spiritual wellbeing.

“Far too often, medical professionals only dig deep enough to make a diagnosis and prescribe a medication,” explains Sarah. “At Medicas Medical Clinic, we take patient care much deeper. Rather than just treating the symptoms, we conduct a personalized whole-health assessment and work with each patient on an individual bases to help uncover the true cause of your health concern. When you leave, you will feel listened to and well cared for.”

She continues, “Sometimes that underlying cause may be stress related, linked to your diet, or due to other lifestyle factors. We take the time to learn all we can about each of our patients to provide them with the information and resources they need to be in control of their health. When you know how to implement your own preventative care, you can live the healthiest, most energetic life you can.”

Sarah is an experienced nurse practitioner with more than 20 years of patient care under her belt. She holds an MBA with a speciality in Health Care Management, is a Registered Nurse with a Master's in Nursing and is a Board Certified Family Nurse Practitioner. But even more important than those degrees and certifications

Medicas Medical Clinic is a less stressful primary care facility. They offer a variety of services for the entire family – general wellness care, work, sports and camp physicals, chronic disease management, women's health services, men's health services and well checks for children, two years old or older. Call them today!

is Sarah's passion for compassionate, holistic patient care. “I know that when empowered with the right skills and knowledge, our patients will be the directors of their own health!”

### **Holistic Care for the Whole Family**

Medicas Medical Clinic provides Holistic Wellness Services for the entire family. “Besides general wellness care, we offer work, sports and camp physicals, chronic disease management, women's health services, men's health services and well checks for children, two years old or older. (Parents need to continue to visit their Pediatricians for routine child vaccinations for the prevention of childhood diseases. But we will treat strep throat, colds or flu.) We can be the primary care provider for every member of your household... wouldn't that be convenient!”

Urgent Care Services are also available at Medicas Medical Clinic. “We can handle most non-emergency urgent care issues much quicker

than the emergency room and with much less stress or cost,” Sarah adds.

“We are equipped to handle fever, minor injuries, stitches, headache and migraine care, flu symptoms, chest pain and many other concerns that might otherwise have you spending hours waiting in the ER.”

**IMPORTANT!** If you are experiencing an extremely painful headache with no history of headache, suspect a stroke or heart attack, have an injury that pulses blood with your heartbeat, or have lost consciousness, go directly to the emergency room. Non-emergency chest pain can be assessed here and an EKG can be performed. A referral to a cardiologist may be needed. If you suspect a heart attack – numbness on one side of the body, slurred speech or unconsciousness – that is a true **emergency** and you should **CALL 911 – IMMEDIATELY** and be taken to the nearest hospital! **DO NOT DELAY!**

**Most Major Insurance Accepted**

Medicas Medical Clinic accepts **most major private insurance plans, Medicare, Cigna, Medicaid, Etna Multiplan**, cash, credit and debit. Please be sure to have your insurance card (if you have one) and a photo ID with you when you arrive for your first appointment.

Medicas Medical Clinic is located on Stewart Parkway in the same building at Tax City USA. They will be open 9 am to 5 pm Monday through Friday. Appointments are required for routine care, sports physicals and well checks, but walk-in urgent care will be handled on a case by case basis.

If you are looking for a primary care provider close to home who has that special bedside manner to put your mind at ease with compassionate patient-centered care, Medicas Medical Clinic is the right choice!

Their new convenient location is at **5846 Stewart Parkway, Douglasville.** For more information, call **770-575-4938** or visit them at **medicasmmedicalclinic.com.**
